In some cases, looks do matter. It’s why we made the CC. Because we thought you might like a car that’s not just loaded with features, but is also loaded with sophistication and style. And with its sporty performance, it looks like heads will turn a lot quicker when you pass by. That’s the Power of German Engineering.
Street art.

Quality. Every once in a while you see something on the street that really captures your attention. And sometimes, even your imagination. That was our goal when we made the CC. And it’s why we spent so much time making sure that everything about the CC exudes quality. From the sleek exterior styling details to the finely crafted interior, the CC has a level of quality that elevates the art of design. And it’s how the CC steals glances and hearts all at the same time.

- LED Daytime Running Lights (DRL) and LED taillights
- Elegant instrument panel
- 4-door coupe design
- Bi-Xenon headlights
- Premium multi-function trip computer*
- Headlight washer system*

Frameless doors. Unlike most cars that have visible spot welds which need to be covered, the CC uses an advanced laser seam welding process for a seamless roof design.

Integrated rear spoilers. The elegant profile of the CC is further enhanced by the rear spoiler that melds perfectly with the body. Beauty is more than sheet-metal deep.
Technology. The CC proves that style and substance don’t have to be mutually exclusive.

With a standard navigation system, rearview camera, and VW Car-Net connected car features, the CC is loaded with features you’ll appreciate using every day. And with an available 600-watt Dynaudio® premium sound system, you’ll get to hear how the CC brings all this technology together beautifully.

Easy Open trunk access. Sometimes you’ve got your hands full. That’s why we offer this available feature, which allows you to automatically open the trunk of your CC hands-free by simply waving your feet under the bumper.

Rearview camera. Backing up or parallel parking is easier with a rearview camera that shows what’s going on behind you. So when you’re in reverse, you always know what’s coming.

Volkswagen Car-Net® connected car features. Want the status of your vehicle’s doors, windows, and trunk? Find a great restaurant? VW Car-Net lets you connect with your car and the outside world through your computer or compatible smartphone.*

*VW Car-Net services provided by Verizon Telematics, Inc. Automatic Crash Notification may be enabled for up to six years from first activation or when vehicle is sold, whichever comes first. *VW Car-Net services available in the U.S. at participating dealers. *VW Car-Net services require compatible mobile devices with the VW Car-Net mobile application available for download. Standard text and data rates apply.

To believe it.
You’ll notice the second you sink into the available supple leather seating surfaces and eye their two-tone design. The lap of luxury just got more luxurious.

Make any day a better day with this available driver’s seat massage function. It’s how the CC can help take you away on every getaway.

Whether it’s hot or cold outside, the CC has you covered. The front seats with available active ventilation control provide both cooling and heating functions.

Inner beauty that’s easy to see.

Interior. Sit inside the CC and you’ll see that its beauty runs more than just skin deep. From the rich materials used throughout the cabin to the fine details everywhere you look and touch, it’s clear that the CC isn’t just beautiful to look at, it’s also a beautiful experience once you get inside.

In-dash analog clock
Interior ambient lighting*
Multifunction navigation system*
VW InField® multi-function steering wheel
ClimatePro® dual zone automatic climate control
Leather-wrapped, multifunction steering wheel
12-way power-adjustable front seats including 4-way power lumbar support
Power rear sunshade*

*Feature available on select models.

Executive shown in Truffle and Black Two-Tone leather
Performance. Whether you go with the standard 200-hp turbocharged engine or the available high-output 280-hp V6, the CC puts the power in your hands. And with an autobahn-tested suspension and available 4MOTION all-wheel drive, the CC shows how powerful performance and sporty handling can live together in perfect harmony.

### 3.6L V6 engine
Feel free to exercise all that power. With 280 hp, this available V6 engine makes the CC one of the most powerful sedans in its class. And lets you pass more time in the passing lane.

*Always obey local speed and traffic laws.

The fast. And the luxurious.
Safety cage with advanced thermoformed steel B-pillars.

Our safety cage not only helps protect you in front, side, and rear impacts, but the CC is also reinforced on top with specially thermoformed and incredibly strong B-pillars.

Adaptive airbags. Our airbags are designed to adapt to crash severity, and special sensors in the doors deploy the Side Curtain Protection® airbags faster in the event of a side impact.** We’re thinking ahead, from every angle.

Electronic Stability Control (ESC) can help the CC maintain control by applying corrective forces at each wheel when you need it. It helps regulate and control.

Adaptive airbags. Our airbags are designed to adapt to crash severity, and special sensors in the doors deploy the Side Curtain Protection® airbags faster in the event of a side impact.** We’re thinking ahead, from every angle.

Brake disc drying. When it’s raining outside, this system wipes water off the disc brakes to help them remain dry and retain their full stopping power. And it’s activated by simply turning the windshield wipers on.

Intelligent Crash Response System (ICRS). The Intelligent Crash Response System can automatically disable the fuel pump, unlock all the doors, and turn on the hazard lights in the event of a collision that activates the vehicle’s airbags.†

Tire Pressure Monitoring System (TPMS). The CC is sensitive, especially when it comes to its tires. To help stay efficient and safe, the Tire Pressure Monitoring System can alert you to a loss of tire pressure.

Dramatization.

*This is a dramatization and does not depict what will happen in an accident. All bags will not inflate simultaneously in a frontal impact. Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. **Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. †The Intelligent Crash Response System (ICRS) will only activate in a collision where the airbags deploy or safety belt pretensioners activate. Not all collisions cause airbags to deploy or safety belt pretensioners to activate.

We go the extra mile here.

Safety. We’ve always felt that safety should never be a luxury. That’s why we built the CC with a host of standard features designed to help you avoid a collision and help protect you if one becomes unavoidable. Because there’s nothing like the luxury of knowing you’re driving a car that invests so much in you and your passengers.

So every mile is safer out here.
