Bluetooth® / Voice Recognition

App-Connect

Optional features shown.

The information within this guide must be used in conjunction with the information in the Volkswagen Owner's Manual. You should refer to your vehicle's Owner's Manual and infotainment supplement for all information and warnings, and feature limitations. Always pay careful attention to the road and do not drive while distracted. Some Infotainment features can only be accessed and operated when the vehicle is standing still.

1. Steering Wheel Left Side Controls

Buttons for operating the Cruise Control or Adaptive Cruise Control* and Driver Assistance features. Volume settings for radio, Navigation system notifications or phone calls.

2. Steering Wheel Right Side Controls

 **Voice Control Button:** Activates the Voice Recognition system. Short press activates Volkswagen Voice Recognition system. A long press will activate Voice recognition to a paired phone.

VIEW View Button:* For vehicles with a Digital Cockpit, switches between wide and standard display.

 **OK Button:** Used to select settings for features in the instrument cluster display.

 **Horizontal Menu Buttons:** Used to navigate through the instrument cluster main menus.

 **Vertical Arrow Buttons:** Push to navigate inside a specific menu.

 **Horizontal Arrow Buttons:** Push to change radio stations, scroll through radio presets, or select the next or previous media track.

3. USB Controls

The USB port in the center console will charge devices and transfer data. It is marked with a . The USB port in the center storage box is a charge only connection.

4. Windshield Wiper and Washer Lever

Intermittent/Low/High functions are activated with up-clicks of the stalk. Intermittent rain-sensing wiper speed is controlled with the switch on top of the stalk. Pull the stalk toward steering wheel to wash. Press the stalk down for single wipe.

5. Infotainment

Touch sensitive buttons that control the various Infotainment functions, including radio, media selections, App-Connect function, phone operation, vehicle functions and the optional Navigation system.

6. Start-Stop System

When activated, the engine shuts off automatically when vehicle comes to a stop, such as at traffic lights. Engine restarts upon brake release. Start-Stop is automatically activated when the ignition is switched on. The indicator light in the button will remain off. If deactivated, the indicator light will illuminate. Start-Stop only works when conditions are met, e.g., driver's seat belt is fastened, doors and hood are closed, sufficient battery charge, etc. Some conditions will cause a restart of the engine, such as the steering wheel being turned or the A/C is activated. During an engine stop, if the driver leaves the vehicle longer than 30 seconds, the ignition will switch off.

7. Digital Cockpit

Offers customizable instrument cluster presentation of vehicle information. VIEW button on the steering wheel toggles between view options. The display can be personalized using the Infotainment system controls. Select **CAR > Settings > Instrument Cluster**.

8. Remote Start (not shown)

If your vehicle is equipped, the engine can be started from outside the vehicle with the Remote Start feature, allowing the HVAC system to heat or cool the interior. On your key fob, press the Lock button , then Remote Start button . Pressing Remote Start button three times will cancel remote start.

* Available on select trim lines.

Driver Assistance Features

Navigation

Climatronic System

Seats / Trunk Operation

Bluetooth® / Voice Recognition

App-Connect

Activate Cruise Control

- Locate the cruise control buttons on the left side of the multi-function steering wheel.
- Press the  button to activate the Cruise Control.
 - A speedometer icon  will appear in the instrument cluster display.

Set Cruising Speed

1. When you get to your cruising speed, press the **SET** button on the multi-function steering wheel.
2. A **CRUISE** indicator light will illuminate in the instrument cluster display.
3. To increase/decrease the speed by 1 mph increments, press and release the **+** or **-** button.
4. To increase/decrease the speed by 5 mph increments, press and hold the **+** or **-** button.

Cancel and Resume

1. To cancel the cruise speed, press the brake pedal or press the  button once on the multi-function steering wheel.
2. The green **CRUISE** indicator light will go off. Your last selected speed stays in memory until you turn off the ignition or turn Cruise Control off.
3. To resume your set speed, press the **RES** button on the multi-function steering wheel.

Turning Cruise Control System Off

Press  twice.

 Text [CRUISE3-20](#) to [38981](#) to watch the Cruise Control video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Adaptive Cruise Control

- Adaptive Cruise Control (ACC) helps maintain an individually stored constant speed and a previously set distance between your vehicle and those in front of you. When you approach a slower moving vehicle in front of you, the vehicle may brake if the situation requires. When the vehicle is no longer present, ACC will accelerate back to the stored speed. You can set the speed-dependent distance from the vehicle ahead to one of five levels.
- When the **ACC** button is pressed to activate ACC, the  indicator light illuminates in the instrument cluster.
 - To change the ACC distance interval, press the  button to cycle through the distance intervals. When the shortest interval is reached, the distance returns to the greatest interval when the button is pressed again.
 - When the Adaptive Cruise Control system brings the vehicle to a stop for more than 3 seconds, briefly press the accelerator pedal or press **RES** on the multi-function steering wheel to resume Adaptive Cruise Control.

Note: This feature is not a substitute for attentive driving. See the Owner's Manual for further details and important limitations. Adaptive Cruise Control is available only on select trim lines.

Assistance System Setting

If your vehicle is equipped with Driver Assistance features, you can access the Assistance system settings menu in the Infotainment system, allowing modification to the Driver Assistance feature operation.

1. Select **CAR** function then select **Settings**.
2. Select **Assistance system**.

 Text [ADAPTIVE3-20](#) to [38981](#) to watch the Adaptive Cruise Control video. Always pay careful attention to the road, and do not drive while distracted. Message and data rates apply.

 **Warnings:** See [Driver Assistance Systems](#) in your Owner's Manual for more detailed information and for important safety warnings.

Seats / Trunk Operation

Bluetooth® / Voice Recognition

App-Connect

Discover Media Touchscreen Navigation System

1. Press the **NAV** button.
2. Select **New destn.** on the touchscreen.
3. Begin entering a Point of Interest (POI) or address information starting with House number, Street, City.
4. When your POI or address appears, touch the correct address on the screen.
5. Select **Start** to begin route calculation.

Note: Navigation is available on select trim lines. When entering an address for another state, use only the two-character abbreviation for the state. Entering a destination on the touchscreen or changing any settings can only be done when the vehicle is stationary. The navigation SD card must be in one of the Media Box SD card slots.

Points of Interest (POI)

1. Press the **NAV** button, then select **POIs** on the touchscreen to choose the most common POI types for your travels.
2. Select **Start** to begin route guidance.

Note: The navigation SD card must be in one of the Media Box SD card slots.

Text **NAVPOINT3-20** to **38981** to watch the Navigation: Point of Interest video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Cancel Active Route Guidance

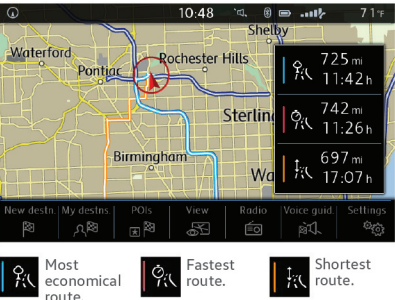

1. Select **Route** on the touchscreen.
2. Select **Stop route guidance** option on the touchscreen.

Additional Settings

To include alternative routes and make additional navigation customizations, select route options prior to starting route guidance. Here you can:

- Choose between three alternative routes if available.
- Use Dynamic route guidance if SiriusXM® Traffic* is available.
- Avoid certain road types and more.

*Always pay careful attention to the road, and do not drive while distracted. SiriusXM audio and data services each require a subscription sold separately, or as a package, by Sirius XM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Sirius, XM and all related marks and logos are trademarks of SiriusXM Radio Inc.

Destination Entry Voice Command

1. Short press the **Voice Control** button  on the multi-function steering wheel. A beep will sound.
2. Say "Enter Address." After the beep, speak the address; for example, "Two zero two four Main Street, Los Angeles." Speak single digits.
3. The system will repeat the address for confirmation and ask if you would like to start route guidance. After the beep, say "Yes" and route guidance will begin.

Note: If you would like to change the state say "Enter state again" and say your current state, then follow instructions.

Text **NAV3-20** to **38981** to watch the Navigation: Manual Destination video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

 **Warnings:** See **Navigation** in your Owner's Manual for more detailed information and for important safety warnings. Navigation is an optional feature.

Navigation

Climatronic System

Seats / Trunk Operation

Bluetooth® / Voice Recognition

App-Connect

Heating and Air Conditioning

- To cool or warm the occupant compartment automatically, press the **AUTO** button to turn the system on.
- Adjust the driver's temperature dial to your preferred setting.
- Press the **SYNC** button to synchronize the temperatures between the zones. If there is a large temperature difference between the two zones, it may hamper the system's ability to quickly cool the interior.
- In extreme heat, press the **MAX A/C** button. When a comfortable temperature has been reached, press the **AUTO** button.

Text **CLIMATE3-20** to **38981** to watch the Automatic Climate Control video.
Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Defrost/Defog 1

1. Press the **Defrost** button. It is recommended to turn the temperature setting to **HI** for quickest defrost/defogging.
2. The A/C function comes on automatically and it is recommended to leave A/C on to dry the air.
3. When the windshield is clear, press the **AUTO** button.
4. Switch on outside mirror heating . Heats only at outside air temperatures below +68°F (+20°C).

Note: In the event of significant fogging, opening a window briefly can help.

Text **DEFROST3-20** to **38981** to watch the Climate Control-Defrost video.
Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

SYNC 2

1. Select your preferred temperature with the left temperature dial.
2. Adjust the fan speed and vents if necessary.
3. Press the **SYNC** button. The light inside the button will illuminate showing it is active.

Note: The driver's settings will be applied to the passenger and rear climate zones.

Air Distribution 3

The **Air Distribution** button directs air to the floor, panel or defrost vents or a combination of vents. Pressing the button multiple times toggles through the different airflow settings.

AUTO 4

AUTO allows you to regulate and maintain the occupant compartment temperature at a desired level automatically.

1. Turn the driver-side temperature dial to the desired temperature.
2. Press the **AUTO** button if it is not already illuminated.

Seat Heating/Ventilation* 5

- To warm up quickly on a cool morning, press the  button for seat heating.
- To cool down quickly in warm weather, press the  button for seat ventilation.

*Available on select trim lines.

OFF 6

Turn the fan dial counterclockwise until it stops, and all lights on the dial are off. Or, alternatively you can:

1. Press the **MENU** button.
2. Tap **OFF** on your touchscreen.

REST (Residual Heat) 7

Use the **REST** button to turn the Residual Heat function of the Climatronic on or off. Residual heat uses the heat from the engine coolant to maintain a comfortable cabin temperature when the engine is off.

- If the ignition is switched off and the engine is warm, the residual heat from the engine is used to continue to heat the passenger compartment.
- The function switches off after 30 minutes or if the battery charge is low.

 **Warnings:** See [Climate Control](#) in your Owner's Manual for more detailed information and for important safety warnings.

Climatronic System

Seats / Trunk Operation

Bluetooth® / Voice Recognition

App-Connect

Driver and Front Passenger Electrical Seat Controls

If your vehicle is equipped with electronic controls for the front seats, the driver and passenger seat will have a set of a controls located on the sideboard of the seat.

- 1. Slides the seat forward or back.
- 2. Adjusts the backrest angle.
- 3. Raises or lowers the seat cushion.
- 4. Adjusts the 4-way lumbar.

Power Memory Seats

Memory Seat Controls

- 1. Adjust the driver's seat and outside mirror positions to your preferred positions.
- 2. Press and release the **SET** button.
- 3. Press and hold the Memory button **1**, **2** or **3** (if equipped) until the chime sounds.

When the back massage feature is switched on, the lumbar support moves and massages the lumbar region of the back.

Note: Feature available on select trim lines and may vary depending on vehicle equipment. Memory seat buttons are located on the driver side.

... Text [SEATS3-20](#) to [38981](#) to watch the Memory Seats video.
Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Recalling Stored Memory Settings

- With the vehicle stopped and the ignition ON, press and hold the corresponding memory button.

OR

- With the ignition off and the driver's door open, press and hold the memory button until the stored position is reached.

Note: Personalization feature must be deactivated (Car > Settings > Personalization and ensure deactivated).

Closing the Luggage Compartment Lid

Manual Electric Luggage Compartment Lid Close Button

Applies to vehicles equipped with Manual Electric Luggage Lid Close button.

- Push the button on the rear trunk lid edge. The trunk lid moves to the closed position and the soft close mechanism locks.

Easy Close Trunk

When your arms are full and you need a little help closing the trunk, the Easy Close feature automatically closes the trunk when the remote key is outside of the sensor range.

- Push the **Easy Close** button to activate.
- You must be carrying your vehicle key on your person, e.g., in your pocket, hand or purse.

Note: For vehicles equipped with keyless access and an Automatic Closing button.

... Text [EASYCLOSE3-20](#) to [38981](#) to watch the Easy Close Trunk video.
Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Easy Open Sensor-Controlled Luggage Compartment Lid

- You must be carrying your vehicle key on your person, e.g., in your pocket, hand or purse.
- The ignition must be off.
- Move your foot and shin as close to the bumper as possible without contacting the bumper (in kicking motion). Your shin must be in the upper part of the sensor's range and your foot in the lower part.
- Quickly move your shin out of range. The rear hatch opens automatically.

Note: Easy Open feature is available on select trim lines only.

... Text [TRUNKRELEASE3-20](#) to [38981](#) to watch the Hands-Free Trunk Release video.
Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Trunk Button

- Within range, push and hold the **Trunk** button on your key fob to open or close* the trunk.
- To open the trunk, pull and release the trunk switch located on the driver door.
- If the ignition is on, you can close the trunk by pulling and holding the switch located on the driver door, until the trunk lid is completely closed.

*Feature applies to the SEL premium model.

 **Warnings:** See [Seats and Trunk Operation](#) in your Owner's Manual for more detailed information and for important safety warnings.

Seats / Trunk Operation

Bluetooth® / Voice Recognition

App-Connect

Pairing a Compatible Phone

1. Be sure to check your phone's compatibility at www.knowyourvw.com/bluetooth.
2. With the ignition on and the vehicle in Park, turn the Infotainment system on. Your vehicle's Bluetooth system will be in "discovery" mode.
3. From the Bluetooth menu on your phone, search for new devices and select VW BT XXXX (last four digits of VIN).
4. A connection request will appear on the Infotainment display.
5. Press **Connect** on the Infotainment display.
6. The Infotainment display will then show a PIN.
7. Make sure the same PIN is displayed on your phone and press **Yes** on the touchscreen, then press **Pair** on your phone.

Note: If your phone displays a prompt asking to connect to your vehicle, make sure to enable future automatic connections. This will help to automatically reconnect the compatible paired device to the system. Once the PIN is shown, pairing must be completed within 30 seconds; otherwise, the process will need to be repeated.

Primary and Secondary Phone Functionality

Two active phones can be connected simultaneously. Follow steps 1-7 above. Only contacts from the primary phone will be shown within the Infotainment system. Switching between phones requires pressing the **Swapping** icon .

Note: This feature is not available when the phone is connected to Apple CarPlay® or Android Auto.

Text **PAIR3-20** to **38981** to watch the Phone Pairing video.
Always pay careful attention to the road, and do not text and drive.
Message and data rates apply.

Call by Name

1. Short-press the **Voice Control** button  on the multi-function steering wheel.
2. After the chime say "Call," followed by the name of the person you want to call. For example, "Call Mike Brown."
3. The system will confirm, "Do you want to call Mike Brown?" You then may reply "Yes." If the contact has multiple numbers, select or say the desired line number on the screen when prompted. Once selected, the system will then say "Contact is being dialed."

Voice Recognition Tips

- The contact must be said exactly as it is stored in your phone's contact list.
- If multiple numbers are stored per contact, you may use the shortcut "Call John Smith work", or the system may ask you to choose e.g., work, mobile, home, etc.

Text **VOICE3-20** to **38981** to watch the Voice Recognition video.
Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Answer an Incoming Call

The Bluetooth system will interrupt your car stereo with a ringtone. Press the **OK** button on the multi-function steering wheel or the green **Phone** icon  on the Infotainment screen to answer the call.

Volume Settings

To adjust the volume of the Bluetooth system while on a call, press the **Volume Up** or **Volume Down** button  on the left side of the multi-function steering wheel.

Switch to Private Mode

To switch a Bluetooth call to your mobile phone, which would prevent passengers from hearing the conversation:

1. Once a call has been answered, use the **Horizontal Menu** buttons  on the multi-function steering wheel to access the Phone menu in the instrument cluster display.
2. Press the **Vertical Arrow** buttons  on the right side multi-function steering wheel controls until "Private" appears in the display.
3. To select, press the **OK** button on the multi-function steering wheel.

Cancel Active Voice Recognition

When voice recognition is activated, press the **Voice Control** button  on the multi-function steering wheel. Or say "Cancel."

End a Call

Press the red **Phone** icon  on the touchscreen, or you may also:

1. Use the **Horizontal Menu** buttons  on the multi-function steering wheel to access the Phone menu in the instrument cluster display.
2. Press the **Vertical Arrow** buttons  until "End" appears in the display.
3. Press the **OK** button on the multi-function steering wheel.

 **Warnings:** Visit www.knowyourvw.com/bluetooth to view more detailed information and important safety warnings for **Bluetooth Pairing**.

 **Warnings:** See **Voice Control** in your Infotainment System Booklet for more detailed information and for important safety warnings.

Bluetooth® / Voice Recognition

App-Connect

App-Connect

Volkswagen App-Connect makes your Volkswagen more like a friend. With Volkswagen Car-Net[®] App-Connect available on certain models, you can access select smartphone apps right from your dash.

Apple CarPlay[®]

Apple CarPlay is a smarter way to use your iPhone[®] while you drive your Volkswagen. With an updated user interface that helps you control tunes, turns and Siri[®] suggestions, a calendar app that lets you view and manage your day, and maps that reveal more of what's around you, getting there just got a whole lot easier—and a lot more fun.*

1. Ensure you are running the latest iOS on your device.
2. Unlock your iPhone and plug it into the USB port using a certified lightning cable.
3. A screen will appear on the Infotainment system stating that a new device has been detected and will ask “Do you want to connect with Apple CarPlay?”. Select **Connect**.
4. Select **Allow** on iPhone to enable Apple CarPlay to access your iPhone while your phone is locked.

Note: You will have to have had an unlocked iPhone within the past hour in order to use Apple CarPlay. When you are connected using Apple CarPlay, your iPhone can no longer be used as a source in MEDIA or as a Bluetooth device. Apple CarPlay is compatible with iPhone 5 or higher running iOS 7.1 or later. Further information can be found at support.apple.com and siriuserguide.com. Apple CarPlay is a trademark of Apple Inc.

Features

Apple CarPlay features Siri voice control. Siri must be enabled on the device to use Apple CarPlay. There are two ways to activate Siri:

- Press and hold the **Voice Control** button  on the multi-function steering wheel until you hear the tone, which activates Siri.
- Press and hold **Home** on the touchscreen to activate Siri.

1. **Home:** Two features include:
 - Return to the Apple CarPlay home screen or to the Apple CarPlay Dashboard.
 - Long press to activate Siri.
2. **Phone:** Siri can help you make calls, return missed calls and listen to voicemail.
3. **Maps:** Opens Apple Maps for turn-by-turn directions, traffic conditions, immersive 3D experiences and estimated travel time. Siri can also help with directions. Activate Siri and say “Navigate to” and your destination.
4. **Messages:** Siri can send, read and reply to your text messages for you.
5. Tapping the **Volkswagen Logo** icon simply takes you to the Volkswagen native user interface with all the features and functions of Apple CarPlay still active.
 - To charge iPhone only, disconnect from Apple CarPlay by pressing the **Volkswagen Logo** icon, then select **Disconnect** on the touchscreen. This will allow Bluetooth[®] while charging iPhone.

*Always pay careful attention to the road, and do not drive while distracted. Not all features are available on all operating systems. Standard text and data usage rates apply. App-Connect features require compatible device, operating system and mobile apps. See mobile device and app providers for terms and privacy.

Android Auto[™]

1. Ensure you are running the latest Android[™] OS on your device and download Android Auto from the Google Play Store. An active Google account and an internet connection is required.
2. Plug your Android device into the USB port using a manufacturer approved cable.

3. Press the **App** key on your touchscreen then select **Android Auto**. Ensure phone is unlocked.
4. Select **OK** on your touchscreen for data transfer prompt.
5. Follow instructions on your device to continue setup.

Android Auto will appear on the Infotainment touchscreen once all the prompts have been accepted on the device.

Android and Android Auto are trademarks of Google LLC. Further information can be found at android.com/autof.

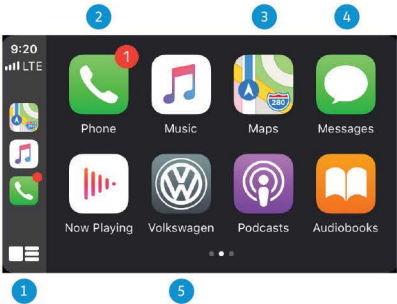

Features

1. **Microphone:** The Google Assistant can be activated with a long press of the **Microphone** icon on the touchscreen or by using touchscreen commands that work with available apps. The Google Assistant can also be activated with a long press of the **Voice Control** button  on the multi-function steering wheel.
2. **Navigation:** Predictive navigation provides turn-by-turn directions, traffic conditions and estimated travel time. Android Auto can predict where you want to go next based on your calendar and recent destinations.
3. **Phone:** Listen and reply to text messages, make calls or check your voicemail.
4. **Home Screen:** Takes you back to the home screen of Android Auto.
5. **Music and Audio:** Use your touchscreen to access to your favorite artists, songs and playlists. Android Auto lets you stream from apps such as Pandora, Spotify and iHeartRadio.

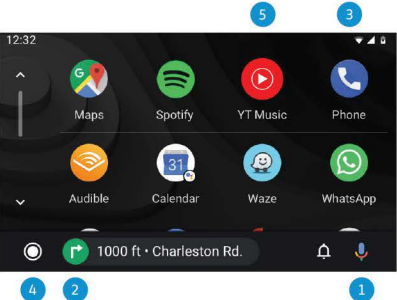

Tapping the Exit icon  simply takes you to the Volkswagen native user interface, then select Disconnect if you wish to completely disconnect Android Auto.

 Text **CARPLAY3-20** to **38981** to watch the Apple CarPlay video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

1. Home button
2. Phone icon
3. Maps icon
4. Messages icon
5. Volkswagen Logo icon

 Text **ANDROID3-20** to **38981** to watch the Android Auto video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

myVW

All things VW. All in one place.

Put essential tools and information at your fingertips. Enjoy features such as:

- Service reminders¹, scheduling & history²
- Maintenance schedules
- Roadside assistance requests³

Plus, get remote features⁴ and more when you activate VW Car-Net[®]:

- Remote start⁵ & lock/unlock⁶
- Vehicle alerts
- Last parked location

myVW Enrollment Process (if not performed by dealer):

1. Download the myVW app⁷
2. Click “Sign up” and enter your email and a password
3. You’ll get an email; click on the link
4. Follow the steps to set up your account
5. If you do not see your car in the app:
 - Enter the VIN found on the driver’s side of the dashboard
 - Scan a QR code or enter a registration number from your infotainment screen. To find these, go to **Menu > Settings > VW Car-Net online services > Registration**
6. Create a 4-Digit PIN
7. Activate VW Car-Net to enjoy remote features¹

To learn more about myVW go to vw.com/owners

¹ Volkswagen highly recommends that a maintenance service be performed every 10,000 miles or 12 months, whichever occurs first. Actual recommended service intervals and scheduled maintenance services vary based on vehicle model, model year, and mileage. See your Volkswagen dealer, warranty & maintenance booklet, and/or VW Care Terms and Conditions for details.
² Service history is available as long as work was performed since after January 2014 at a participating Volkswagen dealership.
³ Roadside Assistance provided by a third party. May require additional payment for services rendered. See owner’s literature for limitations and details.
⁴ Available on most MY20 and newer vehicles. Always pay careful attention to the road and do not drive while distracted. Certain services require trial or paid subscriptions, which may have their own terms and conditions. VW Car-Net Remote Access requires a VW ID, myVW app, and myVW account, cellular connectivity, network compatible hardware, availability of vehicle GPS signal, and acceptance of Terms of Service. Not all services and features are available on all vehicles and some features may require the most recent software update. Certain Car-Net services, such as Roadside Call Assist, connect out to 3rd party providers that may require additional payment. Standard text and data rates may apply for app and web features. See Terms of Service, Privacy Statement, and other important information at www.vw.com/carnet. Do not drive while distracted. Vehicle features and content may vary depending on vehicle equipment. Please see owner manual for further information.
⁵ Requires myVW Mobile App and compatible factory-installed or dealer-installed remote start feature. See Owner’s Manual for further details and important warnings about the keyless ignition feature. Do not leave vehicle unattended with the engine running, particularly in enclosed spaces, and consult local laws for any limitations on use. Standard text and data rates may apply.
⁶ Requires myVW mobile app. Standard text and data rates may apply. See Owner’s Manual for further details and important warnings about locking and unlocking your vehicle remotely.
⁷ Standard text and data rates may apply. Always pay careful attention to the road, and do not drive while distracted.

 Warning: See **App-Connect** and **myVW** in your Owner’s Manual for more detailed information and for important safety warnings.

App-Connect

Warning and Indicator Lights

For additional information on indicator lights, refer to your vehicle's Owner's Manual.

	Stop! Parking brake engaged.		Lights up: ESC malfunction or ESC switched off by the system. Flashes: ESC or ASR is working.		Passenger front airbag turned off (PASSENGER AIR BAG OFF light).		Mobile phone is connected via Bluetooth to the factory-- installed mobile phone package.
PARK	Stop! Parking brake engaged.		ABS malfunction.		Passenger front airbag turned off (PASSENGER AIR BAG OFF light).		Icy road warning. Outside temperature colder than +39 °F (+4 °C).
	Stop! Brake fluid level too low or brake system malfunction.		ABS malfunction.		Blind Spot Monitor malfunction.		Charge level of the mobile phone battery. Applies only to models with a factory-- installed mobile phone package.
BRAKE	Stop! Brake fluid level too low or brake system malfunction.		One or more driving lights burned out. Cornering light malfunction.		Lane Assist switched on.	<ul style="list-style-type: none">Failure to heed warning lights and instrument cluster text messages can cause the vehicle to break down in traffic and result in a collision and serious personal injury.• Never ignore warning lights or text WARNINGS.• Always stop the vehicle as soon as it is safe to do so.• Park the vehicle at a safe distance from moving traffic and where no part of the hot catalytic converter and exhaust system can come into contact with flammable materials under the vehicle, such as dry grass, brush, spilled fuel, etc.• A broken down vehicle presents a high accident risk for itself and others. Switch on emergency flashers and set up a warning triangle to warn oncoming traffic.• Before opening the engine hood, always switch off the engine and let the engine cool down.• Always be very careful when working in the engine compartment, which is a potentially dangerous area in any motor vehicle and can cause serious personal injury.	
	Stop! Lights up: Engine coolant level too low, too high, coolant temperature too high, or engine coolant system malfunction. Flashes: Engine coolant system malfunction.		Not enough windshield washer fluid.		Turn signals, left or right. Emergency flashers switched on.
