Keyless Access & Time

The information within this guide must be used in conjunction with the information in the Volkswagen Owner's Manual. You should refer to your vehicle's Owner's Manual, and Infotainment System Booklet for all information and warnings, and feature limitations. Always pay careful attention to the road and do not drive while distracted. Some Infotainment features can only be accessed and operated when the vehicle is standing still.

- 1. Driver Information Display**
When the ignition is switched on, you can display trip computer information and control a variety of vehicle functions using the multi-function steering wheel.
- 2. Climate Control**
Your vehicle is equipped with either an Automatic Climate Control system or a Manual Climate Control system.
- 3. Infotainment**
Hard keys and touchscreen buttons control the various Infotainment functions, including radio, media selections, phone operation, vehicle functions and the optional Navigation system.
- 4. Remote Start (not shown)**
If equipped, the engine can be started from outside the vehicle with the **Remote Start** button, allowing the HVAC system to heat or cool the interior. On your key fob, press the **Lock** button , then the **Remote Start** button  twice. Pressing three times will cancel operation.
- 5. Tire Pressure Monitoring System (TPMS)**
After inflating tires to the correct pressure, turn the ignition on and press the SET button inside the glove box for at least two seconds to reset the TPMS.
- 6. Trunk Lid Release**
Pull the trunk lid release to unlock and open the trunk lid.

- 7. Steering Wheel Left Side Controls**
Buttons for operating the Cruise Control system and increasing or decreasing volume settings for radio, Navigation system notifications or phone calls.
- 8. Steering Wheel Right Side Controls**
 -  **Voice Control Button:** Activates the Voice Recognition system. Short press to activate Volkswagen Voice Control, long press to activate third party voice control with a compatible connected smartphone.
 -  **Phone Button:** Displays the Phone main menu or can be used to accept or end phone calls.
 -  **OK Button:** Used to select settings for features in the instrument cluster display.
 -  **Horizontal Menu Buttons:** Used to navigate through the instrument cluster main menus.
 -  **Vertical Arrow Buttons:** Push to navigate inside a specific menu.
 -  **Horizontal Arrow Buttons:** Push to change radio stations, scroll through radio presets or select the next or previous media track.

Pairing a Compatible Phone

1. Be sure to check your phone's compatibility at www.knowyourvw.com/bluetooth.
2. With ignition on and vehicle in Park, turn the Infotainment system on. Your vehicle's Bluetooth system will be in "discovery" mode.
3. From the Bluetooth menu on your phone, search for new devices and select VW BT XXXX (last four digits of VIN).
4. A connection request will appear on the Infotainment display.
5. Make sure the same PIN is displayed on the touchscreen and press **Yes** on the touchscreen, then press **Pair** on your phone.

Note: If your phone displays a prompt asking to connect to your vehicle, make sure to enable future automatic connections. This will help to automatically reconnect the compatible paired device to the system. Once the PIN is shown, pairing must be completed within 30 seconds; otherwise, the process will need to be repeated.

Primary and Secondary Phone Functionality

Two active phones can be connected simultaneously. Follow steps 1-5 above.

Both devices can receive incoming calls. However, only the primary phone's contact list will be available through the Infotainment system.

To switch between phones, press the Swapping icon  on the Infotainment screen.

Note: This feature is not available when the phone is connected to Apple CarPlay® and Android Auto™.

 Text **PAIR10-20** to **38981** to watch the Phone Pairing video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Bluetooth® Audio Streaming

1. First, pair your compatible Bluetooth-equipped phone or audio player. (Refer to Pairing a Compatible Phone steps 1-5 above.)
2. Press the **MEDIA** Infotainment button.
3. Tap **Source** on the touchscreen and select **BT audio**.
4. To browse through your music, select **Play**, **Pause**, **Previous** or **Next** on the touchscreen.

Note: Browsing capability available only with an iPhone® Bluetooth connection.

- To stream music from a secondary paired device, select **MEDIA**. Choose **BT audio** as the source and then select the secondary device.

 **Warnings:** Visit www.knowyourvw.com/bluetooth to view more detailed information and important safety warnings for **Bluetooth Pairing**.

Keyless Access & Time

Heating and Air Conditioning

1. Press the AUTO button to reach a selected temperature automatically. The system will control fan speed and direction.
2. Adjust the driver's temperature dial to your preferred setting.
3. Press the SYNC button to synchronize the temperatures between the zones. If there is a large temperature difference between the two zones, it may hamper the system's ability to quickly cool the interior.
4. In extreme heat, press the MAX A/C button. When a comfortable temperature has been reached, press the AUTO button.

Text **CLIMATE10–20** to **38981** to watch the Automatic Climate Control video.

Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Defrost/Defog 1

1. Press the Defrost button. It is recommended to turn the temperature setting to HI for quickest defrost/defogging.
2. The A/C function comes on automatically and it is recommended to leave A/C on to dry the air.
3. When the windshield is clear, press the AUTO button.
4. Switch on outside mirror heating . Heats only at outside air temperatures below +68°F (+20°C).

Note: In the event of significant fogging, opening a window briefly can help.

Text **DEFROST10–20** to **38981** to watch the Climate Control–Defrost video.

Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

SYNC 2

The driver's settings will be applied to the passenger and rear climate zones.

1. Select your preferred temperature with the left temperature dial.
2. Adjust the fan speed and vents if necessary.
3. A light on the button will illuminate when active.

Air Distribution 3

The **Air Distribution** button directs air to the floor, panel or defrost vents or a combination of vents.

Seat Heating 4

To warm up quickly, press the  button for seat heating.

AUTO 5

When AUTO is activated, the system will control fan speed and airflow direction to achieve the set temperature.

1. Adjust the driver's side dial to the desired temperature.
2. Press the AUTO button, which will illuminate when active.

Fan Speed 6

Adjust fan speed by turning the dial clockwise to increase, counterclockwise to decrease.

Warnings: See **Climate Control** in your Owner's Manual for more detailed information and for important safety warnings.

Keyless Access & Time

Enter a Destination on Your Touchscreen

1. Press the **NAV** button.
2. Press **New destn.** on the touchscreen.
3. Begin entering Point of Interest (POI) or address information starting with House number, Street, City.
4. When your POI or address appears, touch the correct address on the screen.
5. Press **Start** to begin route calculation.

Note: Navigation is available on select trims. When entering an address for another state, use only the two character abbreviation for the state. Entering a destination on the touchscreen or changing any settings can only be done when the vehicle is stationary. The navigation SD card must be in one of the Media Box SD card slots.

Text **NAV10-20** to **38981** to watch the Navigation: Manual Destination video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Additional Settings

If you wish to include alternative routes and make additional navigation customizations, select route options prior to entering a destination. While in the navigation function, select **Settings** on your touchscreen > **Route options** > enable **Suggest 3 alternative routes**.

Here you can:

- Include up to three alternative routes.
- Use Dynamic route guidance using SiriusXM® Traffic.
- Avoid certain road types and more.

Cancel Active Route Guidance

1. Select **Route** on the touchscreen.
2. Select **Stop route guidance** option on the touchscreen.

-  Most economical route.
-  Fastest route.
-  Shortest route.

Points of Interest

1. Press **NAV** button, then press **POIs** on the touchscreen to choose the most common POI types for your travels.
2. Select **Start** to begin route guidance.

Note: The navigation SD card must be in one of the Media Box SD card slots.

Text **NAVPOINT10-20** to **38981** to watch the Navigation: Point of Interest video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

One-Shot Destination Entry

1. Short press the **Voice Control** button  on the multi-function steering wheel. A beep will sound.
2. Say "Enter Address".
3. After the beep, speak the address; for example, "Two zero two four Main Street, Los Angeles". Speak single digits.
4. The system will repeat the address for confirmation and ask if you would like to start route guidance. After the beep, say "Yes" and route guidance will begin.

Note: If you would like to change the state say "Enter state again" and say your current state, then follow instructions.

Cancel an Active Route

1. Short press the **Voice Control** button  on the multi-function steering wheel. A beep will sound.
2. Say "Cancel destination".

myVW

All things VW. All in one place.

Put essential tools and information at your fingertips. Enjoy features such as:

- Service reminders¹, scheduling & history²
- Maintenance schedules
- Roadside assistance requests³

Plus, get remote features⁴ at no additional charge for five years⁵ from the date of purchase when you activate VW Car-Net® Remote Access:

- Lock/unlock⁶
- Vehicle alerts
- Last parked location⁷

myVW Enrollment Process (if not performed by dealer):

1. Download the myVW app⁸
2. Click "Sign up" and enter your email and a password
3. You'll get an email; click on the link
4. Follow the steps to set up your account
5. If you do not see your car in the app:
 1. Enter the VIN found on the driver's side of the dashboard
 2. After accepting the Terms of Service, the myVW app will provide a registration code
 3. Press i-button call located in the vehicle's overhead console and provide registration code to the Call Agent
6. Create a 4-Digit PIN
7. Activate VW Car-Net to enjoy remote features⁴

To learn more about myVW go to vw.com/owners

¹ Volkswagen highly recommends that a maintenance service be performed every 10,000 miles or 12 months, whichever occurs first. Actual recommended service intervals and scheduled maintenance services vary based on vehicle model, model year, and mileage. See your Volkswagen dealer, warranty & maintenance booklet, and/or VW Care Terms and Conditions for details.

² Service history is available as long as work was performed since after January 2014 at a participating Volkswagen dealership.

³ Roadside Assistance provided by a third party. May require additional payment for services rendered. See owner's literature for limitations and details.

⁴ Available on most MY20 and newer vehicles. Always pay careful attention to the road and do not drive while distracted. Certain services require trial or paid subscriptions, which may have their own terms and conditions. VW Car-Net Remote Access requires a VW ID, myVW app, and myVW account, cellular connectivity, network compatible hardware, availability of vehicle GPS signal, and acceptance of Terms of Service. Not all services and features are available on all vehicles and some features may require the most recent software update. Certain Car-Net services, such as Roadside Call Assist, connect out to 3rd party providers that may require additional payment. Standard text and data rates may apply for app and web features. See Terms of Service, Privacy Statement, and other important information at www.vw.com/carnet. Do not drive while distracted. Vehicle features and content may vary depending on vehicle equipment. Please see owner manual for further information.

⁵ Remote features from Car-Net offered for 5 years from vehicle in-service date.

⁶ Requires myVW mobile app. Standard text and data rates may apply. See Owner's Manual for further details and important warnings about locking and unlocking your vehicle remotely.

⁷ Standard text and data rates may apply and acceptance of Car-Net Terms of Service. Do not use feature to locate stolen vehicle.

⁸ Standard text and data rates may apply. Always pay careful attention to the road, and do not drive while distracted.

 Warning: See [Navigation](#) in your Infotainment System Booklet for more detailed information and for important safety warnings. Navigation is an optional feature.

 Warning: See [myVW](#) in your Owner's Manual for more detailed information and for important safety warnings.

Navigation / myVW

Driver Assistance

Voice Recognition, Trunk Lid & Memory Seats

Keyless Access & Time

Activate Cruise Control

- Locate the Cruise Control buttons on the left side of the multi-function steering wheel.
- Press the  button to activate Cruise Control.
 - A speedometer icon  will appear in the instrument cluster display.

... Text [CRUISE10–20](#) to [38981](#) to watch the Cruise Control Video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Set Cruising Speed

1. When you get to your cruising speed, press the **SET** button on the multi-function steering wheel.
2. A green cruise indicator light  will appear in the instrument cluster display.
3. To increase the speed by 1 mph increments, press the **+** button.
4. To decrease the speed by 1 mph increments, press the **–** button.

Cancel, Resume and Off

1. To cancel the cruise speed, press the brake pedal or press the **CNL** button on the multi-function steering wheel. The green cruise indicator light  will go off.
2. To resume your speed, press the **RES** button on the multi-function steering wheel.
3. To turn off the cruise control, press the  button twice.

Optional Adaptive Cruise Control

Adaptive Cruise Control (ACC)  maintains a set speed and will decelerate to maintain a set distance from vehicles in front. ACC may automatically apply braking when necessary. When vehicles ahead clear, ACC resumes the set speed.

You can set the speed-dependent distance from the vehicle ahead to one of five levels.

- When the  button is pressed to activate ACC distance level setting, the  indicator light illuminates in the instrument cluster.
- To change the ACC distance interval, press the  button to cycle through the distance intervals. When the greatest interval is reached, the distance returns to the shortest interval when the button is pressed again.

Note: This feature is not a substitute for attentive driving. See the Owner's Manual for further details and important limitations. Adaptive Cruise Control is available only on select trim lines.

Driver Assistance Systems

If your vehicle is equipped with Driver Assist features, you can activate/deactivate the system.

1. Press the **Driver Assistance System** button  on the end of the turn signal stalk or press the **Horizontal Menu** buttons  on the multi-function steering wheel until you access the Assistance menu in the instrument cluster display.
2. Use the **Vertical Arrow** buttons  on the multi-function steering wheel to select the Driver Assist system you wish to modify.
3. A check mark indicates the system is active.

You can modify some Driver Assist functions further using the multi-function steering wheel and instrument cluster display.

1. Press the **Horizontal Menu** buttons  on the multi-function steering wheel until you reach the Settings menu.
2. Use the **Vertical Arrow** buttons  to access the Assistance menu.
3. When Front Assist is selected, you can activate/deactivate the system, along with distance warning and advance warning level.

... Text [ADAPTIVE10–20](#) to [38981](#) to watch the Adaptive Cruise Control video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Park Assist

Applies to vehicles equipped with Park Assist.

When activated, this feature can help find and automatically maneuver into parallel and perpendicular parking spaces and out of parallel parking spaces. Apply accelerator gently. Apply brake as necessary during steering maneuvers.

1. Press the **P**  button to locate a space while driving past.
2. Activate the turn signal for the side of the vehicle on which you want to park.
3. If the system cannot distinguish between parallel and perpendicular spaces, press **P**  again to choose.
4. Follow messages in the instrument cluster. See Owner's Manual for complete instructions.

Please note that Park Assist only controls the vehicle's steering. The driver is always responsible for braking and accelerating. Pay careful attention to your surroundings and do not drive while distracted.

 **Warnings:** See [Driver Assistance Systems](#) in your Owner's Manual for more detailed information and for important safety warnings.

Driver Assistance

Voice Recognition, Trunk Lid & Memory Seats

Keyless Access & Time

Call by Name

1. Short press the **Voice Control** button  on the multi-function steering wheel.
2. After the chime say “Call”, followed by the name of the person you want to call. For example, “Call John Smith”.
3. The system will confirm, “Do you want to call John Smith?”. You then reply “Yes”. If the contact has multiple numbers, select or say the desired line number on the screen when prompted. Once selected, the system will then say “Contact is being dialed”.

Voice Recognition Tips

- The contact must be said exactly as it is stored in your phone’s contact list.
- If multiple numbers are stored per contact, you may use the shortcut “Call John Smith work”, or the system may ask you to choose; e.g., work, mobile, home, etc.

 Text **VOICE10–20** to **38981** to watch the Voice Recognition (Phone–Making a Call) video.

Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Volume Settings

To adjust the volume of the Bluetooth system while on a call, press the **Volume Up** or **Volume Down** switch  on the left side of the multi-function steering wheel.

Answer an Incoming Call

The Bluetooth system will interrupt your car stereo with a ringtone. Press the **Phone** button  on the multi-function steering wheel or the green **Phone** icon  on the Infotainment screen to answer the call.

Switch to Private Mode

To switch a Bluetooth call to your mobile phone to prevent passengers from overhearing the conversation:

1. Use the **Horizontal Menu** buttons  on the multi-function steering wheel to access the Phone menu in the instrument cluster display.
2. Press the **Vertical Arrow** buttons  until “Private” appears in the display.
3. To select, press the **OK** button on the multi-function steering wheel.

Help

1. From the Phone menu, press the **Voice Control** button  on the multi-function steering wheel and a selection of possible voice commands will appear on the Infotainment touchscreen.
2. Say “Help” and then follow the prompts.

End a Call

- On the multi-function steering wheel, press the **Phone** button  to end the call.
- Press the red **Phone** icon  on the touchscreen.
- Press the **Vertical Arrow** buttons  on the multi-function steering wheel until “End” appears in the Infotainment display. Press the **OK** button on the multi-function steering wheel.

Cancel Active Voice Recognition

Double press the **Voice OK** button  on the multi-function steering wheel.

Sensor-Controlled Luggage Compartment (Easy Open)

- You must be carrying your vehicle key on your person; e.g., in your pocket, hand or purse.
- The ignition must be off.
- Quickly move your foot and shin as close to the bumper as possible (in kicking motion). Your shin must be in the upper part of the sensor's range and your foot in the lower part.
- Quickly move your shin out of range. The rear hatch opens automatically.

Note: Easy Open feature is available on select trim lines only.

 Text **TRUNK10–20** to **38981** to watch the Sensor–Controlled Luggage Compartment video.

Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Memory Seats

Saving Seat Position to Memory

1. Adjust the driver's seat and outside mirror positions to your preferred positions.
2. Press and release the **SET** button.
3. Press and hold the memory button **1**, **2** or **3** until the chime sounds.

Recalling Stored Memory Settings

- With ignition on and vehicle in park, press and hold the corresponding memory button until the stored position is reached.
- With the ignition off and driver's door open, press and release the memory button to achieve the stored position.

 **Warnings:** See [Voice Control](#), [Trunk Lid & Memory Seats](#) in your Owner's Manual for more detailed information and for important safety warnings.

Voice Recognition, Trunk Lid & Memory Seats

Keyless Access & Time

Keyless Access

Unlock

- 1. Make sure you have your key fob with you.
- 2. Slide hand behind driver or front passenger door handles and wait for the door to unlock. Avoid touching the indent on the front of the handle or the door will remain locked.
- 3. By touching the unlocking sensor twice in a row, the entire vehicle will unlock.
- 4. Pull the handle to open door.

Lock

- 1. Make sure you have your key fob with you.
- 2. Touch your thumb to the lock depression on the handle.

Customize which Doors to Unlock with Keyless Access

- 1. Make sure the vehicle is parked. The vehicle will not allow you to customize Keyless Access while driving.
- 2. Select **Settings** from the Instrument cluster.
- 3. Select **Convenience**.
- 4. Select **Central Locking**.
- 5. Select **Unlock doors** and select which doors to lock or unlock with keyless entry.
 - "All doors" unlocks all doors.
 - "Single Door" unlocks only the driver's door.
 - "Vehicle side" unlocks the doors on the driver's side of the vehicle.

Text **KEYLESS2-20** to **38981** to watch the Keyless Access video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Setting the Clock

To Set the Time in Your Vehicle

The clock can be set using the **1** button in the Instrument cluster. To set the time:

- 1. With the ignition on and vehicle in Park, press the button to highlight the hour or the minutes in the clock display.
- 2. To advance the clock, push the **2** button. Press and hold button to fast forward.
- 3. Push the button again to finish setting the clock.

Text **CLOCK4-20** to **38981** to watch the Setting the Clock video. Always pay careful attention to the road, and do not text and drive. Message and data rates apply.

Know Your VW

Visit knowyourvw.com or download our app to take a 360° vehicle tour, view videos, use the Bluetooth compatibility checker and more!

Warnings: See [Time and Keyless Access](#) in your Infotainment System Booklet for more detailed information and for important safety warnings. Navigation is an optional feature.

Keyless Access & Time

App-Connect

Volkswagen

Volkswagen App-Connect makes your Volkswagen more like a friend. With Volkswagen Car-Net® App-Connect available on certain models, you can access select smartphone apps right from your dash.

Apple CarPlay®

Apple CarPlay is a smarter way to use your iPhone® while you drive your Volkswagen. With an updated user interface that helps you control tunes, turns and Siri® suggestions, a calendar app that lets you view and manage your day, and maps that reveal more of what's around you, getting there just got a whole lot easier—and a lot more fun.*

1. Ensure you are running the latest iOS on your device.
2. Unlock your iPhone and plug it into the USB port using a certified lightning cable.
3. A screen will appear on the Infotainment system stating that a new device has been detected and will ask "Do you want to connect with Apple CarPlay?". Select **Connect**.
4. Select **Allow** on iPhone to enable Apple CarPlay to access your iPhone while your phone is locked.

Note: You will have to have had an unlocked iPhone within the past hour in order to use Apple CarPlay. When you are connected using Apple CarPlay, your iPhone can no longer be used as a source in MEDIA or as a Bluetooth device. Apple CarPlay is compatible with iPhone 5 or higher running iOS 7.1 or later. Further information can be found at support.apple.com and siriuserguide.com. Apple CarPlay is a trademark of Apple Inc.

Features

Apple CarPlay features Siri voice control. Siri must be enabled on the device to use CarPlay. There are two ways to activate Siri:

- Press and hold the **Voice Control** button  on the multi-function steering wheel until you hear the tone, which activates Siri.
- Press and hold **Home** on the touchscreen to activate Siri.

1. Home: Two features include:

- Return to the CarPlay home screen or to the CarPlay Dashboard.
- Long press to activate Siri.

2. Phone: Siri can help you make calls, return missed calls and listen to voicemail.

3. Maps: Opens Apple Maps for turn-by-turn directions, traffic conditions, immersive 3D experiences and estimated travel time. Siri can also help with directions. Activate Siri and say "Navigate to" and your destination.

4. Messages: Siri can send, read and reply to your text messages for you.

5. Tapping the Volkswagen Logo icon simply takes you to the Volkswagen native user interface with all the features and functions of Apple CarPlay still active.

- To charge iPhone only, disconnect from Apple CarPlay by pressing the **Volkswagen Logo** icon, then select **Disconnect** on the touchscreen. This will allow Bluetooth® while charging iPhone.

*Always pay careful attention to the road, and do not drive while distracted. Not all features are available on all operating systems. Standard text and data usage rates apply. App-Connect features require compatible device, operating system and mobile apps. See mobile device and app providers for terms and privacy.

Android Auto™

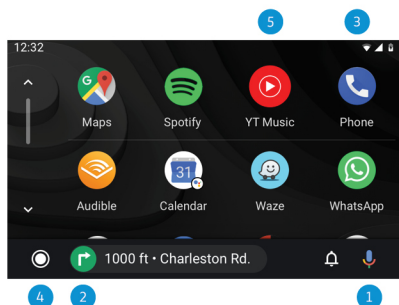

1. Ensure you are running the latest Android™ OS on your device and download Android Auto from the Google Play Store. An active Google account and an internet connection is required.
2. Plug your Android device into the USB port using a manufacturer approved cable.
3. Press the **App** key on your touchscreen.
4. Select **Android Auto** on your touchscreen. Ensure phone is unlocked.
5. Select **OK** on your touchscreen for data transfer prompt.
6. Follow instructions on your device to continue setup.
7. Android Auto will appear on the Infotainment touchscreen once all the prompts have been accepted on the device.

Android and Android Auto are trademarks of Google LLC. Further information can be found at android.com/auto/.

Features

1. **Microphone:** The Google Assistant can be activated with a long press of the **Microphone** icon on the touchscreen or by using touchscreen commands that work with available apps. The Google Assistant can also be activated with a long press of the **Voice Control** button  on the multi-function steering wheel.
2. **Navigation:** Predictive navigation provides turn-by-turn directions, traffic conditions and estimated travel time. Android Auto can predict where you want to go next based on your calendar and recent destinations.
3. **Phone:** Listen and reply to text messages, make calls or check your voicemail.
4. **Home Screen:** Takes you back to the home screen of Android Auto.
5. **Music and Audio:** Use your touchscreen to access to your favorite artists, songs and playlists. Android Auto lets you stream from apps such as Pandora, Spotify and iHeartRadio.

Tapping the Exit icon  simply takes you to the Volkswagen native user interface, then select Disconnect if you wish to completely disconnect Android Auto.

Warning and Indicator Lights

For additional information on indicator lights, refer to your vehicle's Owner's Manual.

	Central warning light: Red and follow the text message in the instrument cluster display.		Lights up: ESC malfunction or ESC switched off by the system. Flashes: ESC or ASR is working.		Passenger front airbag turned off (PASSENGER AIR BAG OFF  light).		When displayed in white, ACC active. Vehicle detected ahead. When displayed in grey ACC not active. Vehicle detected ahead. System switched on, doesn't regulate.
	Stop! Parking brake engaged.		Lights up: ESC malfunction or ESC switched off by the system. Flashes: ESC or ASR is working.		Passenger front airbag turned off (PASSENGER AIR BAG OFF  light).		Service reminder display.
PARK	Stop! Parking brake engaged.		ABS malfunction.		Blind Spot Monitor malfunction.		Icy road warning. Outside temperature colder than +39 °F (+4 °C).
	Stop! Brake fluid level too low or brake system malfunction.		ABS malfunction.		Lane Assist switched on.		Charge level of the mobile phone battery. Applies only to models with a factory-installed mobile phone package.
BRAKE	Stop! Brake fluid level too low or brake system malfunction.		One or more driving lights burned out. Cornering light malfunction.		Turn signals, left or right. Emergency flashers switched on.		
	Stop! Lights up: Engine coolant level too low, too high, coolant temperature too high, or engine coolant system malfunction. Flashes: Engine coolant system malfunction.		Not enough windshield washer fluid.		Fog lights switched on (indicator light on the headlight switch).		Failure to heed warning lights and instrument cluster text messages can cause the vehicle to break down in traffic and result in a collision and serious personal injury.
	Stop! Engine oil pressure too low.		Lights up or flashes: Engine control / monitoring system malfunction (engine Malfunction Indicator Light – MIL).		Daytime running lights (DRL) on.	<ul style="list-style-type: none">• Never ignore warning lights or text WARNINGS.	
	Stop! At least one vehicle door is ajar or not closed properly.		Engine control malfunction.		Daytime running lights (DRL) on.	<ul style="list-style-type: none">• Always stop the vehicle as soon as it is safe to do so.	
	Stop! Engine hood is open or not closed properly.		Lights up or flashes: Problem with the steering.		Lights up: Depress brake pedal! Flashes: The lock button in the selector is not engaged.	<ul style="list-style-type: none">• Park the vehicle at a safe distance from moving traffic and where no part of the hot catalytic converter and exhaust system can come into contact with flammable materials under the vehicle, such as dry grass, brush, spilled fuel, etc.	
	Stop! Trunk lid is open or not closed properly.		Tire pressure too low or Tire Pressure Monitoring System (TPMS) malfunction.		Cruise control is regulating vehicle speed. Or Adaptive Cruise Control (ACC) switched on.	<ul style="list-style-type: none">• A broken down vehicle presents a high accident risk for itself and others. Switch on emergency flashers and set up a warning triangle to warn oncoming traffic.	
	Stop! Lights up or flashes: Steering system malfunction.		Fuel tank almost empty.		Cruise control is regulating vehicle speed. Or Adaptive Cruise Control (ACC) switched on.	<ul style="list-style-type: none">• Before opening the engine hood, always switch off the engine and let the engine cool down.	
	Driver and/or passenger safety belts not buckled.		Fuel tank almost empty.		Lane Assist switched on and ready.	<ul style="list-style-type: none">• Always be very careful when working in the engine compartment, which is a potentially dangerous area in any motor vehicle and can cause serious personal injury.	
	Alternator malfunction.		Fuel filler cap not properly closed.		High beams switched on or headlight flashers in use.		
	DSG® transmission too hot.		Lights up: Engine oil level too low. Flashes: Engine oil system malfunction.		ACC is active. No vehicle has been detected ahead.		
BRAKE WEAR	Front brake pads worn.		Airbag and safety belt pretensioner system malfunction.		Cruise control malfunction.		
	Brake! Depress brake pedal. ACC driver intervention warning.
